June 25, 99

Dear Food and Drug Administration,

Please label all foods exposed to radiation. I would like to know what I'm eating!

Please do not triple the limits on mercury in food. It is toxic and harms our health. It is concentrated in shellfish that grows offshore. We should reclaim the mercury so that it can be used in non harmful ways.

Please keep carcinogens out of our food and out of general use! There are a lot of chemicals in use that have not been tested and they should be tested. Thank you.
